GoHost

Going for Gold: The Triple-G strategy

HAWK CONSULTING

Lucas

Jeffery

Josephina

Erin

GoHost is at a crossroads on how to scale across North America and Beyond

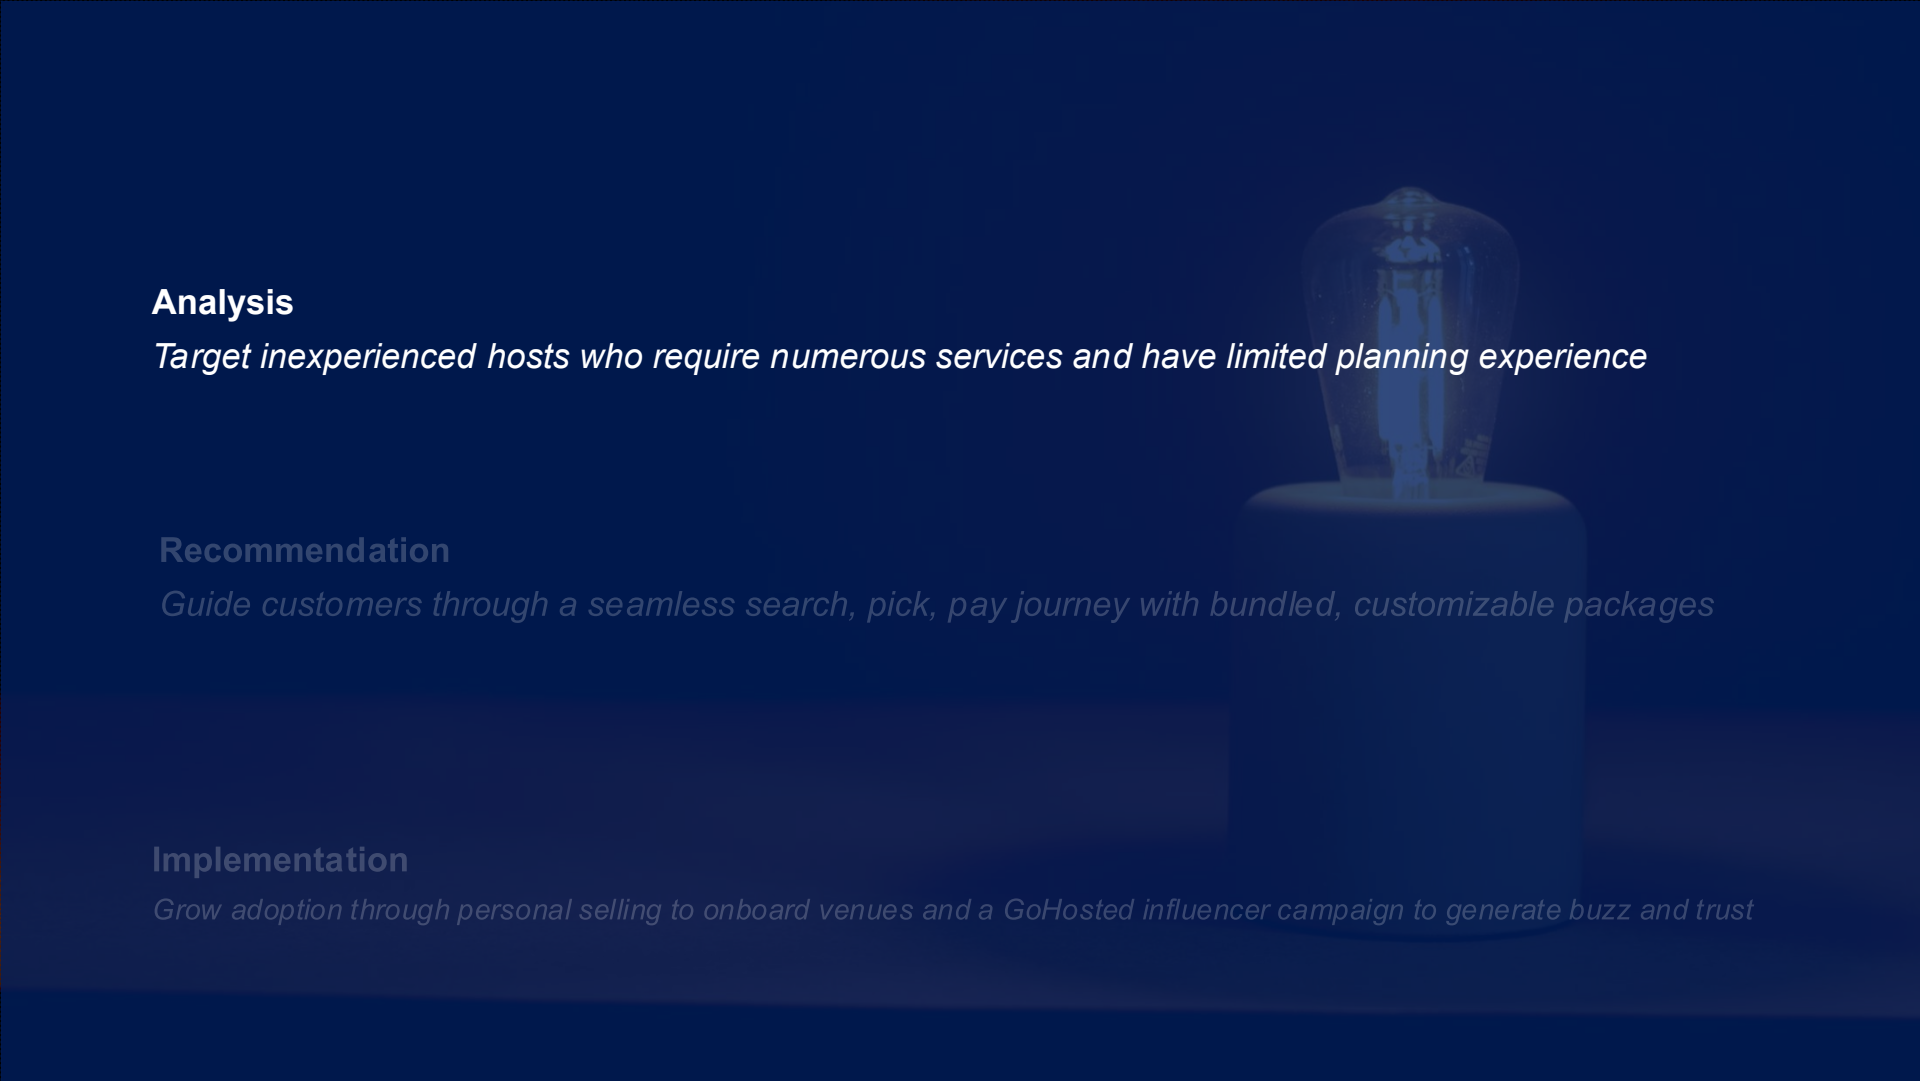

Current Situation & Company Overview

Situation	GoHost has pivoted from kitchens to venues, launching an AI-powered event booking platform.	Currently operating in Ottawa, aiming for North America & global expansion	GoHost faces a two-sided marketplace challenge: must attract both venues and customers simultaneously
Key Question	How can GoHost select the right market and leverage it to scale across North America and beyond?		
Challenges	Choose optimal target segment	Create a differentiated experience	Build awareness with limited resources
Solution	**Ground**	**Guide**	**Grow**

The Triple ‘G’ Solution: Building GoHost’s Path to North America and Beyond

Strategy Overview

Actions	*Strategy*	*Outcomes*
1 **Ground**	*Target inexperienced hosts who require numerous services and have limited planning experience*	**$40m** Annual average spend on platform
2 **Guide**	*Guide customers through a seamless search, pick, pay journey with bundled, customizable packages*	**Profitable** After third year of strategy
3 **Grow**	*Grow adoption through personal selling to onboard venues and a GoHosted influencer campaign to generate buzz and trust*	**2000** Vendors on GoHost by 2030

Analysis

Target inexperienced hosts who require numerous services and have limited planning experience

Recommendation

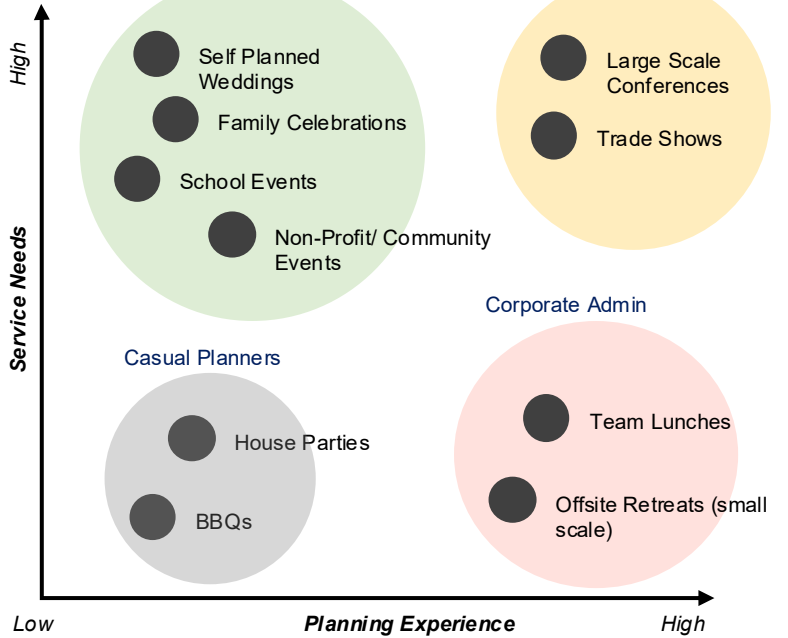

Guide customers through a seamless search, pick, pay journey with bundled, customizable packages

Implementation

Grow adoption through personal selling to onboard venues and a GoHosted influencer campaign to generate buzz and trust

Why GoHost Struggles Today and Where They Should Go

Three Core Problems → Disintermediation → Taking Transactions Offsite → Transaction Size Too Small

Why Not…?

1. **Inexperienced Hosts** ✓
2. **Professional Event Planners**
   - Disintermediation -> Pre-existing network
   - Unlikely to pay for extra services (low incremental value).
3. **Corporate Admin**
   - Small transactions (e.g., team lunches, holiday parties)
4. **Casual Planners**
   - Taking transaction offsite
   - Transaction size too small

GoHost should target Inexperienced hosts (self-planned weddings, school events, nonprofits, milestone family celebrations)

Characteristics of Inexperienced Hosts

Why Inexperienced Hosts Are GoHost's Sweet Spot

Need **multiple services**, not just venues (DJ, catering, entertainment)

Budget-conscious → want affordable, transparent packages

Value **ease of use** → don't know where to start.

Create **larger total transaction size**

How This Addresses the 3 Problems

1. Disintermediation: First-time hosts lack networks

2. Transactions Offsite: They value ease-of-use + insurance

3. Transaction Size Too Small: Bundling services grows spend

Inexperienced hosts = high service needs, larger spend, and low disintermediation risk → GoHost's ideal target

How GoHost Unlocks Value for Inexperienced Hosts

gohost

Simplify planning, increase spend

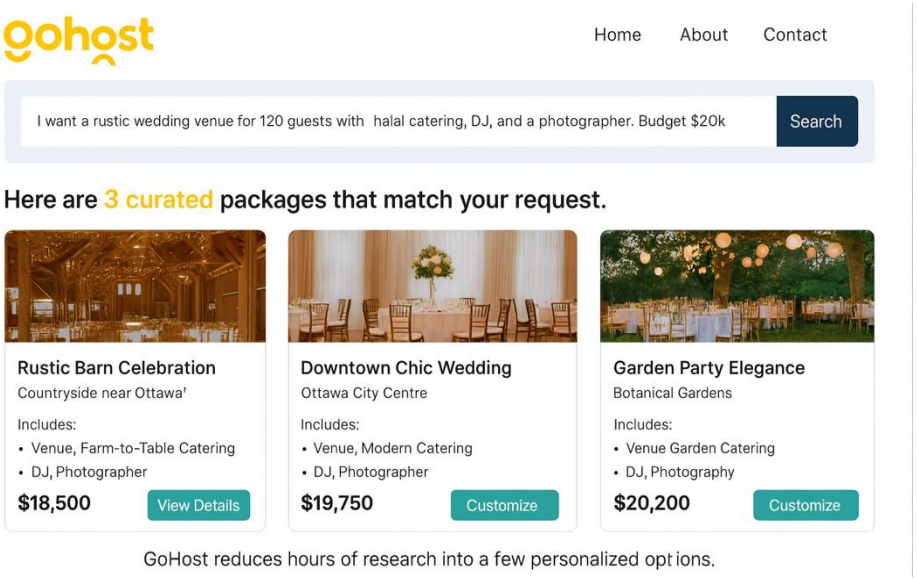

Offer More than Venues

- Expand beyond venues → integrate DJs, catering, décor, entertainment
- **All-in-one marketplace** = saves hosts time & stress
- **Bundled services drive higher transaction values** (venue + vendors = larger spend)

Leverage AI to Create Custom Bundles

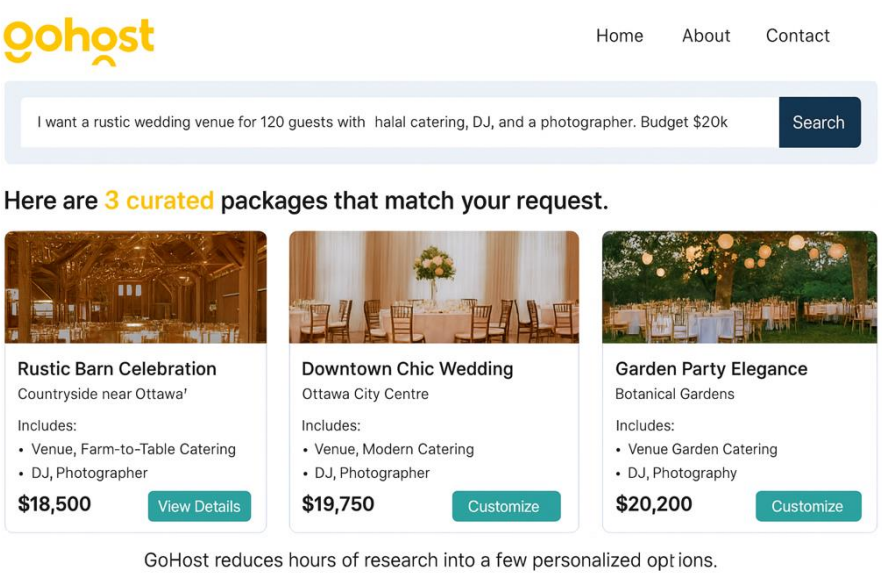

- **AI Concierge = Virtual Event Planner** for first-time hosts
- AI instantly recommends a **curated package** of venue + vendors
- Reduces confusion, ensures trust, and keeps transactions on-platform

Introducing GoHost Bundles!

Step 1: Smart search with bundled options

Emily compares and tailors bundles, just like on Expedia

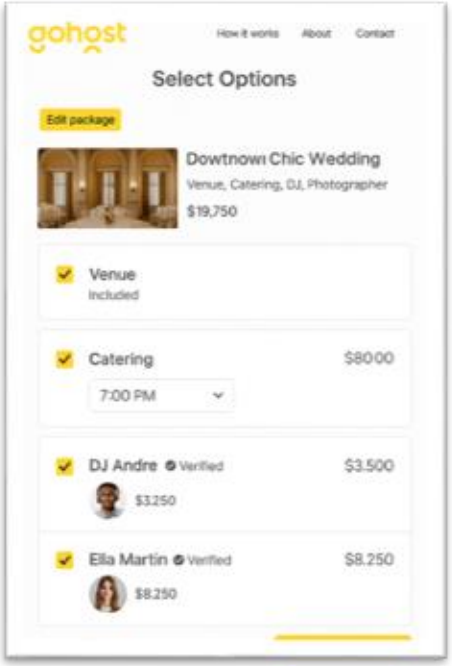

Leverages current features including…

- NLP and Attribute Search
- Vendor Listing Model
- API Integrations
- Secure Payment & Insurance

Instead of hours of research, Emily quickly discovers tailored packages (venue, catering, DJ, photographer) that fit her needs and budget.

Step 2: Customizable package selection

Emily compares bundles and tailors her perfect wedding package

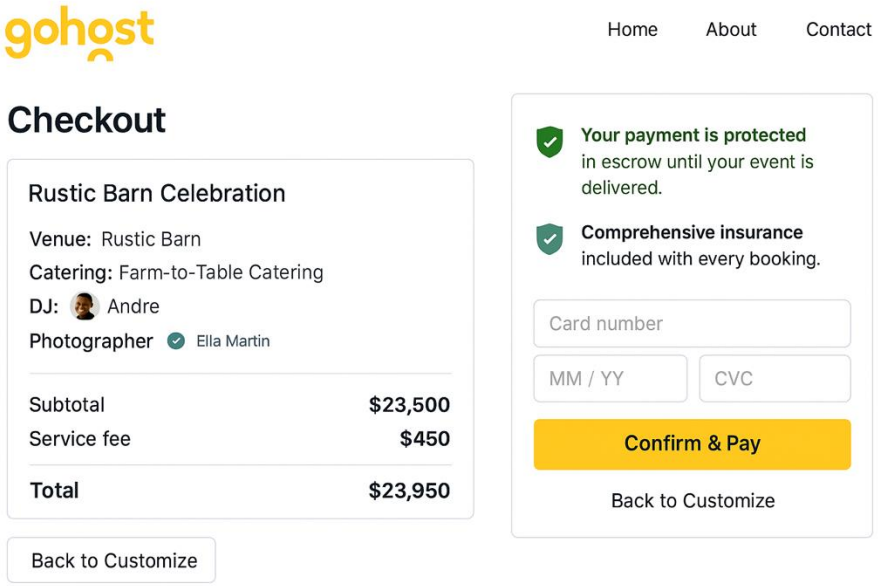

Leverages current features including…

- **Transparency:** Emily sees what's included and the cost breakdown.
- **Flexibility:** She can mix and match vendors while staying inside her budget.
- **Efficiency:** Decision-making is streamlined; no back-and-forth phone calls.

Emily feels in control and confident — she tailors her wedding package exactly to her vision and budget in minutes.

Step 3: Secure payment & flexible business model

Peace of mind for customers, sustainable growth for GoHost

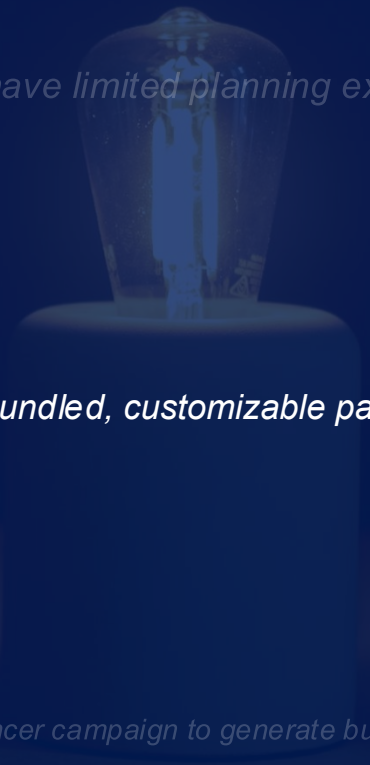

Leverages current features including…

- Multi-vendor, secure escrow via Scotiabank
- Insurance coverage for all bookings
- Discount for Bundling

Emily feels confident paying online; funds are released only after the event occurs.

Grow adoption through personal selling to onboard venues and a GoHosted influencer campaign to generate buzz and trust

Scaling GoHost with Business Development Reps

The GoHost sales playbook

Sales Team

Two sales staff will be hired in the first year and team will grow with company expansion

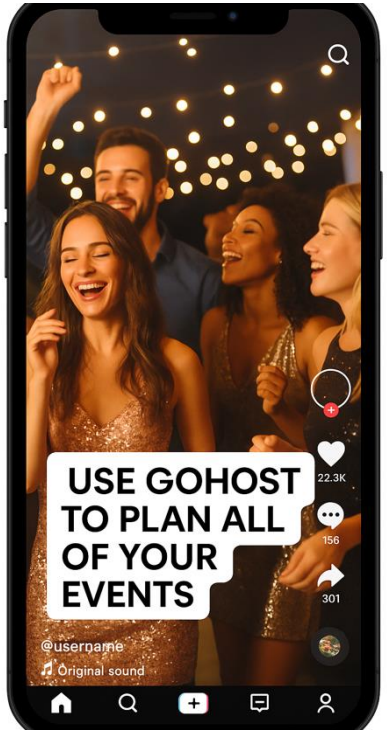

Sales staff will be responsible for building relationships and onboarding venues, caterers, and entertainment providers.

Sales pitch: ***"You focus on delivering great events, we bring you steady, qualified bookings, no upfront cost, no wasted time."***

Takeaway: Sales Staff will ensure that GoHost has a variety of unique service providers on their platform

#GoHosted

Consumer marketing campaign

Product	*Key Features*	*Benefits*
	***Exclusive free event hosted by GoHost for social media influencers***	***Benefit #1*** Proof of Concept
	Social media influencers in attendance to make content	***Benefit #2*** Viral Reach
	Showcase of GoHost's full suite of products (venue, catering, DJ, photobooth)	***Benefit #3*** Brand Positioning

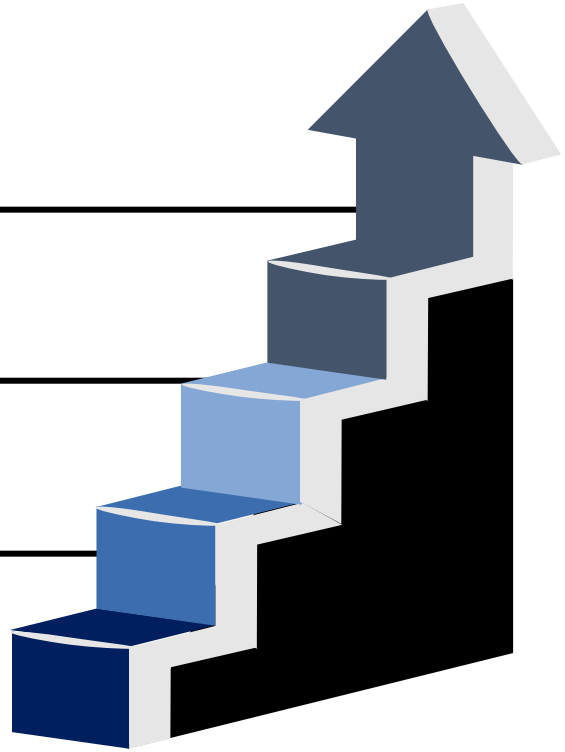

Building a Scalable Revenue Model

Low friction at launch, flexible monetization as we scale

3 **Hybrid & Add-Ons (Scale phase)**
Vendors choose commission-only or subscription-based pricing

2 **Subscription (Growth Phase)**
Optional monthly vendor plans with reduced commission %

1 **Commission (Launch Phase)**
1.5% per transaction to vendors, 0.5% per transaction to clients

Starts with **2% shared commission**, evolves into **subscription + hybrid revenue streams** as GoHost scales.

Outcomes

The strategy is expected to break even in 5 years

Expected Results

Key Outcomes:

2000 vendors on GoHost by 2030

Profitability achieved in Year 3

$40m average annual spend on platform

Driven by:

Aggressive expansion through **3 Business Development Representatives**

Low cost requirements for additional venue density

Influencer parties and targeted paid social advertising

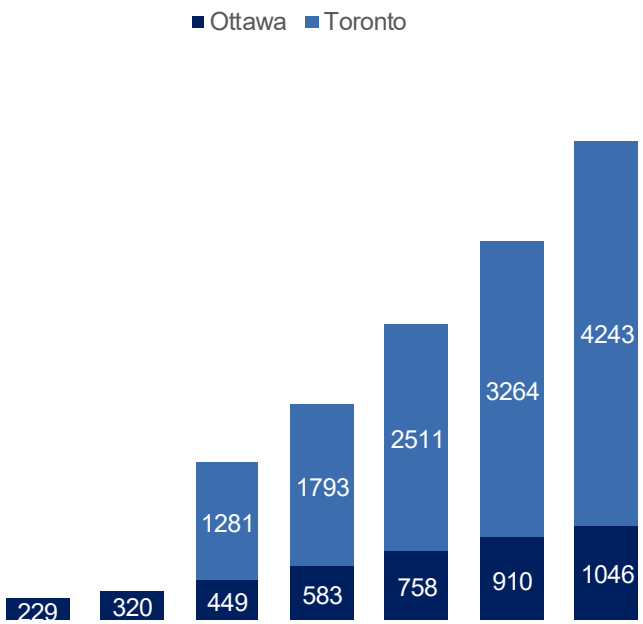

Financial Outcomes

Full-service solution drives significant number of bookings to the platform

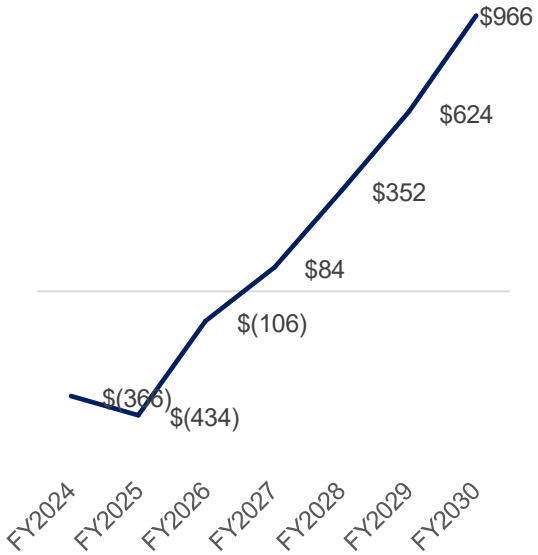

Core Assumptions

- Able to capture **5%** of SOM in first year of each geography
- **80%** of bookings are for weddings, which have an average of 11 vendors
- **1.5%/0.5%** commission split from vendors/end customers

Event bookings by Geography

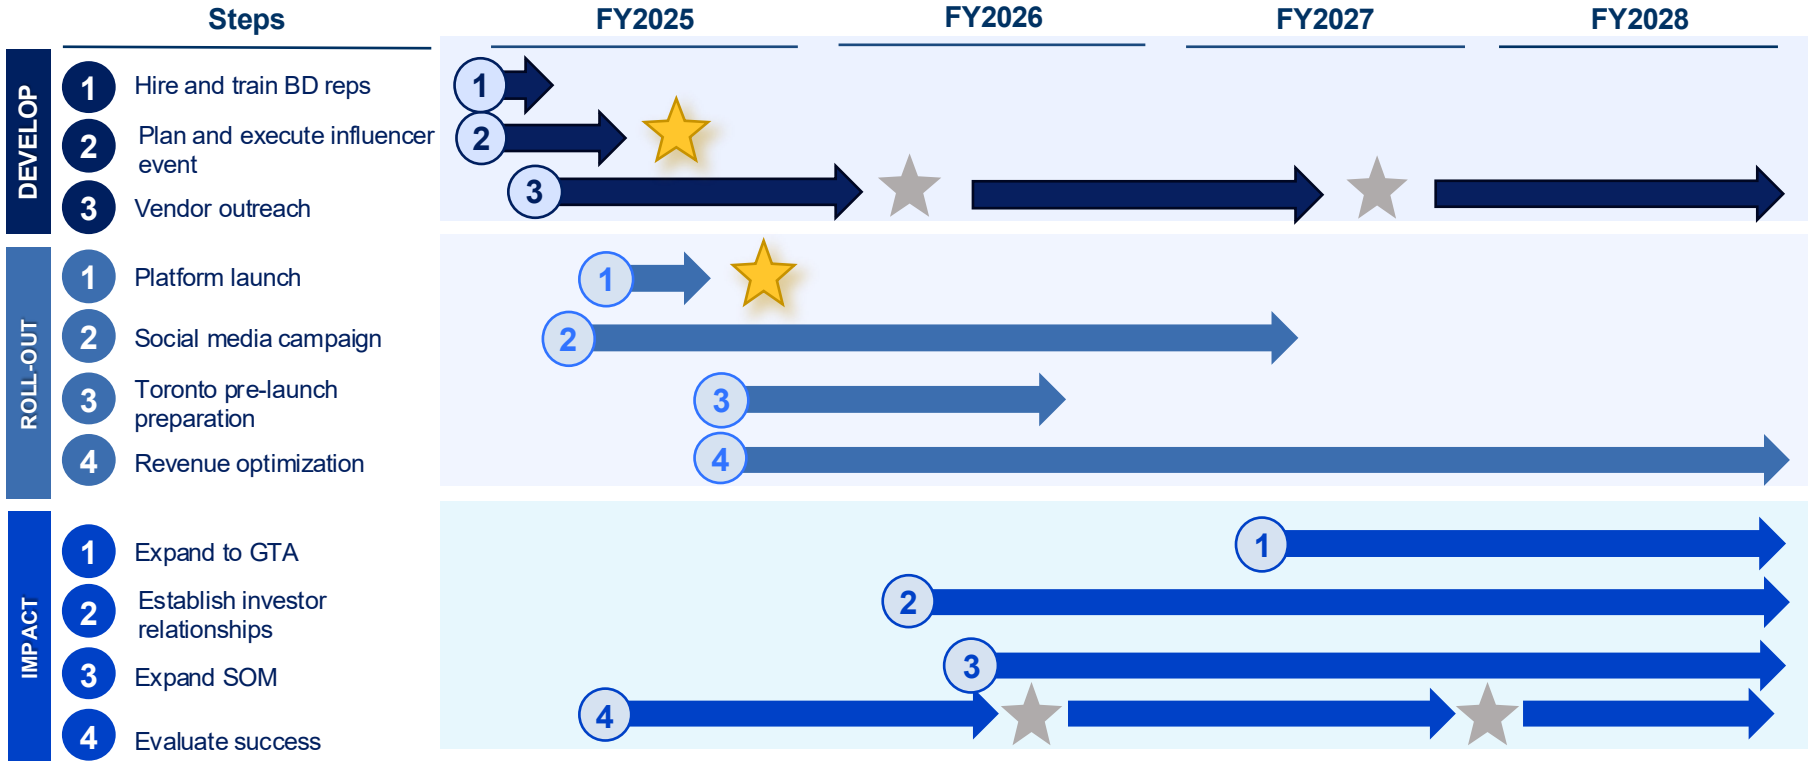

Profit Trajectory ($000s)

Implementation Plan

Strategy roll-out over three year period

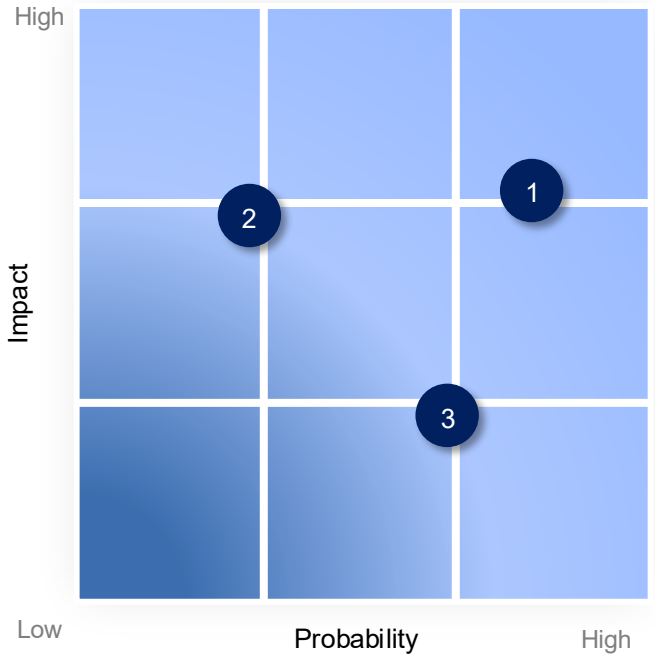

Overview | Ground | Guide | Grow | **Impact**

Risk and Contingencies Analysis

The Triple G solution is prepared for future hurdles

Risk Assessment Matrix

	Risks	Mitigation
1	Continued disintermediation affecting commission	Establish in-app communication platform and payment
2	Reputational risk from low-quality vendors	Require valid business licenses, introduce reviews
3	Disruption by other players in market	Aggressive expansion strategy to establish network effects early; position for sale
